Правила игры

Мир детства⁵.

“ЧТО ЛИШНЕЕ?”

Детям от 3 лет

Количество игроков: 1 - 4

Уважаемые родители и педагоги!

Перед вами развивающий материал для занятий с детьми, который поможет подготовить их к успешному обучению в школе.

Задания предлагаются по принципу от простого к сложному: есть задания как для детей 3 лет, так и 7 лет.

Задания помогут развить логическое мышление, научиться сравнивать, рассуждать и анализировать.

Подготовка к игре

Аккуратно разрежьте карты по пунктирным линиям, у вас получится 48 карточек.

Вариант 1

Для игры нужны все карточки.

Карточки поровну раздаются игрокам.

Ведущий предлагает детям внимательно рассмотреть рисунки на карточках и найти на каждой из них лишнее изображение, назвать его номер и объяснить свой выбор.

Вариант 2

«Развиваем зрительную память»

Ведущий по 15-20 секунд показывает игроку поочередно карточки, начиная с самой простой, (например № 45, 17, 10, 5, 23, 26, и т.д.). После показа каждой предлагает нарисовать по памяти увиденные изображения.

Советы психолога

1. Если вы занимаетесь индивидуально, выберите удобное время и хорошее настроение вашего малыша.
2. Побуждайте детей говорить полными предложениями, например: "Пять не подходит, потому что это цифра, а все остальные - буквы."
3. Если дети затрудняются, помогите им дополнительными вопросами.
4. Не забывайте хвалить малышей за старание.

Желаем успехов!
